PROFESSIONAL SUMMARY

Final-year AI & Data Science student (CGPA 8.20) who builds AI-driven applications and cloud-based systems end-to-end. Built ResuméIQ, a full-stack AI resume-intelligence platform, and holds an AWS Certified AI Practitioner credential, with a strong interest in solving real-world problems using machine learning and generative AI.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java, HTML, CSS

AI/ML: Machine Learning, Natural Language Processing (NLP), Generative AI, Scikit-learn, XGBoost, RAG, Groq

Web & Backend: React.js, Next.js, Node.js, FastAPI, REST API, Tailwind CSS

Cloud & Databases: AWS (S3, Lambda, DynamoDB, Bedrock), MongoDB, PostgreSQL, SQLite, Firebase, Vercel, Render

Tools & Libraries: Git, GitHub, Docker, Pandas, PyMuPDF, pgvector

PROJECTS

ResuméIQ

Next.js, TypeScript, FastAPI, Python, Groq (GPT-OSS 120B), MongoDB, pgvector, PyMuPDF

- Built a full-stack AI platform that analyzes resumes, evaluates ATS compatibility, and matches them against job descriptions to identify skill gaps.
- Generated role-specific optimized resume versions using Groq (GPT-OSS 120B), giving users AI-guided, job-ready resume rewrites.

SpendWise – Subscription Optimizer

HTML, CSS, JavaScript, Python, FastAPI, SQLite, REST API, Vercel, Render

- Developed a full-stack subscription management app with FastAPI and SQLite that tracks recurring expenses and monitors upcoming payments via a payment calendar.
- Built a savings-intelligence feature that flags low-usage subscriptions and estimates potential savings; deployed frontend on Vercel and backend on Render.

TravelGo – Travel Booking Web Application

HTML, CSS, JavaScript, Git

- Built a responsive travel booking web app enabling users to explore destinations, view travel packages, and book trips through an intuitive interface.
- Strengthened front-end development and GitHub version-control workflow while designing user-friendly navigation and layouts.

Sales Forecasting Prediction System

Python, Machine Learning, Pandas

- Created a machine learning model to predict future sales trends using historical business datasets.
- Surfaced seasonal and trend patterns from the forecasted output to support data-driven planning.

EXPERIENCE

Data Analyst Intern — Eagle-HiTech Softcloud Pvt Ltd

Jul 2026 – Aug 2026

Chennai, Tamil Nadu

- Analyzed business datasets using Microsoft Excel and Python to identify trends and support data-driven decision-making.
- Built summary dashboards and reports that streamlined recurring reporting tasks for the team.

AWS Cloud Computing Virtual Intern — NASSCOM

Jan 2026 – Mar 2026

- Completed hands-on labs covering core AWS cloud services including EC2, S3, and Lambda.
- Deployed sample cloud-based applications while learning cloud architecture fundamentals and best practices.

AI-ML Virtual Intern — EduSkills Academy

Jan 2026 – Mar 2026

- Built and trained machine learning models to solve applied AI/ML problem statements as part of a structured virtual curriculum.
- Explored real-world AI case studies, strengthening foundational ML and data-preprocessing skills.

Data Science Intern — Phoenix SoftTech

Jul 2025 – Aug 2025

Madurai, Tamil Nadu

- Performed statistical data analysis on business datasets to uncover actionable insights for the team.
- Assisted in building and evaluating predictive models under the guidance of senior data scientists.

EDUCATION

B.Tech, Artificial Intelligence & Data Science — SSM Institute of Engineering and Technology, Dindigul

Expected May 2027

CGPA: 8.20

CERTIFICATIONS

- AWS Certified AI Practitioner (Global Certification) — Amazon Web Services
- AWS Cloud Quest – Cloud Practitioner — Amazon Web Services
- IBM – Getting Started with Artificial Intelligence
- Infosys – Foundation Course in Machine Learning
